Eiyuden Chronicle: Rising is the first entry in the franchise and a companion game to *Eiyuden Chronicle: Hundred Heroes* that is set in the same world and tells the pre-war tales of various characters who will appear in the main game. The action-RPG melds key backstory with fast-paced combat, town-building mechanics and 2.5D platforming, and is set to release in 2022.

Eiyuden Chronicle: Hundred Heroes became the No. 1 funded Kickstarter video game of 2020 thanks to phenomenal support from the community.

"We've been working hard on the *Eiyuden Chronicle* franchise and love to see the amazing reactions from fans following our trailer at the Microsoft E3 event," said Studio Lead Yoshitaka Murayama. "We're telling a rich story with the *Eiyuden Chronicle* franchise, so much so that we couldn't possibly tell it all within the confines of a single game. We set out to solve that problem

with our companion game *Eiyuden Chronicle: Rising* which features key backstory to the main game and a completely different gameplay style.”

Studio Lead Yoshitaka Murayama and Character Designer Junko Kawano are joining forces once again to bring an unforgettable journey into their fully-realized world of Allraan. In *Eiyuden Chronicles: Hundred Heroes* Rabbit & Bear Studios are taking the turn-based strategy game experience to the next level with a fine crafted six-character battle system. The developers are using meticulously created 2D sprites and 3D backgrounds to deliver a riveting story with over 100 playable characters and engaging gameplay that’s meant to bring players a modern take on classic JRPGs.
